DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Allowable Subject Matter

2. Claims 1-4 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The present invention provides a new method, apparatus and computer readable medium for creating a gradation correction curve, which can improve the reproducibility of colors even when a UCR process is carried out (see specification, page 11, the last paragraph).

Particularly, the new method, apparatus and computer readable medium comprise the following features, which the prior art taken either singly or in combination does not teach:

- combining the more shadowed side of the first gradation correction curve created in the first gradation correction curve creation step/section than the position calculated by the start position calculation step/section and the more highlighted side of the second gradation correction curve created in the second gradation creation step/section than the position calculated in the start position calculation step/section, and thereby creating a continuous third gradation correction curve (see independent claims 1, 3, and 4).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
